BEFORE MODIFICATION:

DURING MODIFICATION:

AFTER MODIFICATION:

With GKL's **NEW** Lock and Blank Face-Plate Bridges and Modification Kit, you can save money and hours of repair time, yet the storefront door will retain its original look after completing modification.

OTHER BENEFITS:

- Simplify storefront door repair and modification procedures
- Save additional time when installing a new mortise lock
- Cover up repairs instantly and modify storefront door lock cavities in minutes
- Prevent burglars from using channel locks and/or pipe-wrenches to burglarize locked doors
- Our modification kit will help you meet the new IBC (International Building Code) regulations and specifications
- Modified storefront door looks clean and natural after installation
